### Feast of the Rosary (7<sup>th</sup> October):

The Rosary is not an optional extra. It has the potential to transform our lives if we are willing.

So where does that leave those of us who genuinely find it difficult to concentrate whilst praying the Rosary?

Despite feeling I don't pray the Rosary particularly well, over the last few years in which I've been praying it on a daily basis, there are several things I've come to realize.

Whilst we can pray the Rosary to varying degrees of perfection, it is not really possible to pray the Rosary badly.

Although we should always hope that we might learn to pray the Rosary better, we are never worse off for praying it. *(Robert Verrill OP)*
